ABOUT

PORTFOLIO
2025

I'm a photographer and visual artist currently based in Cocoa, Florida. I hold a Bachelors of Fine Arts from Florida International University and have a strong foundation in art and design, built through years of personal projects, client shoots, and contract work. For the past six years, I've worked as a freelance photographer and stock contributor for Getty Images. My strengths lie in storytelling, portrait, and nature photography, though I'm experienced across a wide range of styles and subjects. I shoot primarily with a Nikon D7100 and bring a thoughtful, versatile approach to every project.

RELEVANT WORK
EXPERIENCE

PORTFOLIO
2025

PHOTOGRAPHER AND SOCIAL MEDIA MANAGER

I've worked as a contract photographer and social media manager for Galactic Gymnastics, where I handled a wide range of creative and administrative tasks. My role included photographing daily activity in the gym, editing those images, and using them to design flyers, social media posts, and marketing materials. I also created and managed content calendars, scheduled posts, and oversaw front desk operations—including emails, phone calls, and basic accounting tasks.

I currently work as a Stock Contributor for Getty Images, creating images based on demand and industry trends. This ongoing role continues to strengthen my ability to anticipate visual needs, work independently, and deliver high-quality content on deadline.

NOTABLE PROJECTS

EARLIEST TO THE CURRENT YEAR

CLIENT
KATIE DION

PROJECT N.1

This shoot was designed to explore bold color choices and highlight the artistic aesthetic of the subject. The goal was to create visually striking images that emphasize personality, creativity, and style through intentional use of light, color, and composition.

CLIENT
TAMARIUS WATSON

PROJECT N.2

This shoot focused on capturing moody lighting and atmosphere, using the natural overcast of a rainy day to create a cinematic feel. Posing and styling were inspired by editorial photography, aiming to evoke the look and mood of a high-fashion magazine spread. The result is a set of images that feel both intimate and stylized, balancing emotion with elegance.

PERSONAL PROJECT
MIDNIGHT MEMORY

PROJECT N.3

Created as my final project for a Digital Photography and Social Media course, this series was designed to capture the aesthetic and emotional tone of 2007–2015 television. Inspired by shows like Supernatural, The Vampire Diaries, and Teen Wolf, the images reflect the moody, dramatic style and cinematic atmosphere that defined that era of storytelling.
